REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: The prior art of record fails to teach the claimed steering column lock comprising a key cylinder/rotor, a gear and a lock bar actuated by the rotor through the gear arrangement from an unlocked position to a locked position engaging the steering column. While several of the cited patents, especially to Canard, Barbier et al and Arman, teach steering column locks of the same type a claimed, they do not employ a gear, but rather a cam arrangement between the rotor and lock bar. Furthermore, the added limitation to the claims, which provides that most of a length of the lock bar overlaps the key cylinder and gear, is not taught or suggested by the prior art of record. Accordingly, claims 1,3-10,12-17,19,20 are allowable.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
